

# Family favourite music and movies

Erasmus+ Memeurope project

# Hello!

---

My name is Daniil Durnev and in this presentation I want to tell you about favourite music and movies of my family.

# My favourite movies

I love thrillers and criminals movies, so my favourite movies are “John Wick” and “The Shawshank Redemption”.

Also I love “Rick and Morty”, because it is very funny.

# Father's favourite movies

My dad loves thriller too! He loves exciting movies, so his favourite movie is "Die Hard".

# Mother's favourite movies

My mother loves Russian classic movie "Moscow does not believe in tears". She loves simple and calm films, which we can watch together like "Home Alone".

# My favourite music

My musical taste sometimes changes. For instance, in past I used to love American rap, like Juice WRLD, but now I don't listen this.

Today I prefer Russian rap, which sounds good and I can enjoy listening this, like GONE.Fludd, CMH.

# Father's favourite music

---

My father loves cycling, so he listens a lot of music, while he is cycling. Music helps him feel less tired. He listens Ed Sheeran and more other pop music.

# Mother's favourite music

---

My mother listens to music, when she wants to relax after work. She prefer Russian pop music, like Ava Max.

# Family favourite movie

---

Together we love watching before New Year “Home Alone”. It puts us in a good pre-new year mood. We spend time together and this is the main thing.
