

# Family travel bank

Darja Ušakova

As long as I remember, my family and me travelled very often. Sometimes it was a vacation, sometimes sightseeing trips with excursions, and sometimes it was all together.

# The USA

I want to start from the most memorable trip. In 2012, mom, dad, brother and I flew to America to our close friends. Now I'm upset that when I was a kid, I haven't understood that I'm in the USA and was unhappy with being picked up in the morning to go somewhere.

# The New York City

Of course, first thing we went to "The Big Apple" Everyone who's been there will say that New York has its own uncontrollable atmosphere. Which song is associated with this town? I guess my whole family will answer: New York, New York- Frank Sinatra and Shake it off by Taylor Swift.

# The Washington D.C.

The second place I want to talk about is Washington. The Capital of the USA. Why do I remember Washington? There I was very disappointed with the ice cream.

Cause there was a Sponge Bob on the package, but they gave me THIS.

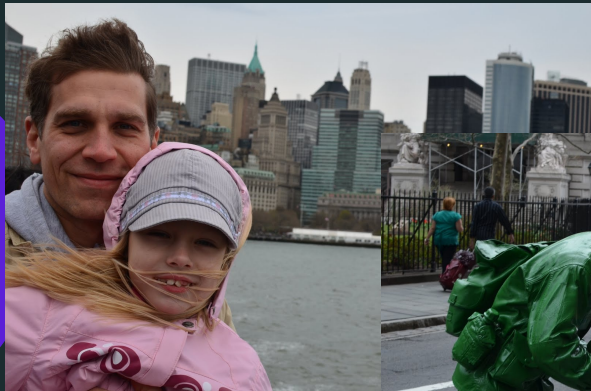

Well, we have also visited Smithsonian  
National Air and Space Museum .

As you can see, I haven't liked that  
because I was picked up too early.

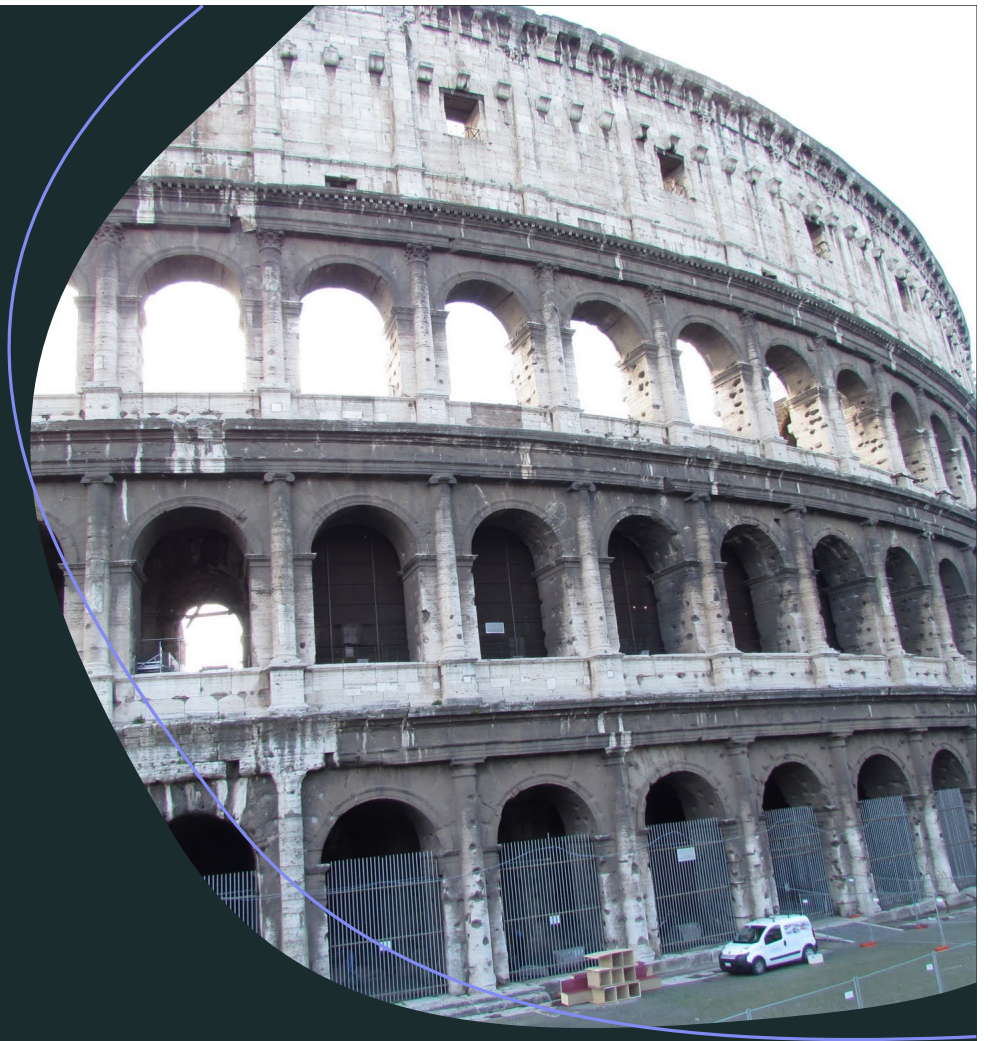

I WANT BACK!!!11!!

## The Rome

Second of my most memorable place is Rome. It is a gorgeous town. Every evening me and my parents bought an Italian frozen dessert - Gelato. Every evening we were trying different flavors.

# The Rome

Of course, Italia is associated with pizza and spaghetti. Me and my parents are no different. What kind of music matches Rome? I think, something calm and slow.

## Nice & Monaco

Honestly, I can't say a lot about those towns because again most of time I was unhappy with what was going on. Yep, I was the one kid who was always not happy.

## Nice & Monaco

But let's continue with Nice and Monaco. I thought for a long-time what kind of things I associate these towns. And I did not find nothing better, than hats, cars, croissants and a stone beach.

Now to this list I would like to add the casino ofc, but then I didn't understand what is it.

## The Malta

It was more rest than trip with excursions. And look, I'm smiling on these photos! I guess that means something good.

# The Malta

What can I say about this vacation? It was fun, that almost all I remember. I remember that we couldn't get out of the water when we were swimming, because the waves were holding us back. But I can also boast that I've seen Azure window. Now it's destroyed by storms in 2017.

I guess, it's time for me to stop.

Now we travel much less because of corona and my studies.

What do I want to say. Travel a lot! With your family, friends, pet or alone.

Travelling is so interesting. When I was a child, I haven't understood that.

I'm very grateful to my parents for giving me a chance to travel and of course for being tolerated to my acting out.

Thanks for your attention!

Don't be like this girl!  
Smile 😊
